

2025 NATIONAL GUILD OF HYPNOTISTS CONTINUING EDUCATION WORKSHOPS Orlando, Florida

Do This Or You Will Be Fired

SATURDAY, NOVEMBER 8, 2025

What a unique name for a class – *Do This Or You Will Be Fired*. Don Mottin opened his first office in August of 1980. His goal was to see six clients a day and work three days a week. Don added another office, and then another office, finally having eight offices in three states. To be able to handle over 400 clients a week, he needed more hypnotists and ultimately had 15 hypnotists working for him.

However, there was a problem. Don did not want to lose the positive techniques he had developed. He also knew that hypnotists are very creative individuals who have different ways of conducting sessions. Don did not want to squash their creativity, but also wanted to create the best sessions for each client. Early on, Don had a couple dozen techniques that his hypnotists must use. These techniques were not debatable. Use these or it is time to move on. It was not long before that list of required techniques grew to over 125 techniques.

These techniques covered everything from regression, to conducting classes, to using validating techniques with every client. There were marketing techniques, the use of metaphors, techniques for pain control, exciting inductions. Just as Don knew what would work, he also knew which techniques would fail. Don has hypnotized over 50,000 clients, so he is teaching from real experience. This one class will change your career in a powerful, positive manner. This class is as close to a mentoring program that you will ever see.

This exciting class is not scheduled to be taught again until 2028! Do not miss out!

Learn over 125 techniques, including:

- ☐ Eliminate abreactions
- ☐ Posthypnotic suggestions that will always work
- ☐ Using truisms that every client can respond to
- ☐ Conducting corporate sessions
- ☐ Securing medical referrals
- ☐ The three suggestions that must always be used
- ☐ The five steps for increasing referrals
- ☐ Secrets of Forensic hypnosis
- ☐ Stage hypnosis techniques in private sessions
- ☐ The big mistake that over 80% of hypnotists make
- ☐ How and when to use ideomotor response
- ☐ The powerful use of the word encounter
- ☐ The past life controversy and how to win the argument
- ☐ Rapidly reaching deep levels of hypnosis
- ☐ The one suggestion that is needed for weight loss
- ☐ Conducting three special sessions at one time
- ☐ The FBI techniques that will rapidly win over clients
- ☐ The perfect length of time for a self-hypnosis class

This is not a misprint. You will master more than 125 techniques in one day. Missouri is an overly conservative state. If Don could build a large practice in Missouri, you could do this as well, regardless of where you are located.

THREE LIVE CLASSES FOR UNDER \$300! Do NOT MISS OUT!

Meet Donald J. Mottin Vice President, NGH DNCH, MCI, OB

Don Mottin is the Vice President of the National Guild of Hypnotist. NGH The National Guild was established in 1950 and has grown to over 20,000 members in 89 counties. Don is also the author of the best-selling hypnosis book *Raising Your Children with Hypnosis*

Don Mottin first became interested in hypnosis while stationed in Japan, serving in the United States Marine Corps, in 1972. After viewing a few demonstrations of hypnosis, Don was skeptical. After all, he was from Missouri, “The Show Me State”. He volunteered for a hypnotic demonstration and was amazed at how much hypnosis differed from his preconceived notions. He discovered that he was not asleep. He did not float about the room. He was not out of control. He was, however, able to create total anesthesia. The Hypnotists ran a needle through his arm. With regression he could recall events from the age of five, as if they happened yesterday. He was free of all stress and worries. He was hooked, and knew what to do with his life. He spent the next year, while in Japan, studying hypnosis.

When Don returned home, to the United States, his quest for knowledge continued. He began studying and reading as much as possible on the subject. In 1976 Mottin joined the police department and began refining his hypnotic techniques in the field of criminal investigations with regression. Most people who are involved in a crime only recall how large the gun appeared. With hypnosis, the witness may be regressed back to the time of the crime and is able to recall the event without experiencing any of the emotions. Don was appointed to the Major Case Squad. The Major Case Squad only takes the best of the best. Don was chosen for his expertise in hypnosis. While a member of the squad Don hypnotized people who witnessed a small crime, all the way up to the murder of a police officer, and everything in-between.

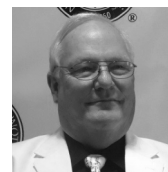

By 1980, Mottin found himself working 8 hours a day with the police department and another 8 hours a day with therapeutic hypnosis for smoking, weight loss, pain control and dozens of other types of sessions. There was not enough time to do both well. Mottin chose to leave the police department in August of 1980.

Don opened Mottin and Johnson Institute of Hypnosis to concentrate on working with private clients. He also began teaching others how to use hypnosis. His original plan was to work three days a week and still make a good living for himself and his family. The plan did not work out. Don had under-estimated the market for his hypnosis services that created success. He was seeing 11 clients a day, and many times had a waiting period a month in advance. Don opened a second office, then a third, followed by a fourth location. Within a few years Don had eight locations in three different states. Don had fifteen hypnotists working for him. Mottin spent the next few years training new hypnotists and put them to work in his offices. Don had fifteen hypnotists working for him. By 2020 Don has hypnotized more than 50,000 people.

Around 1985, word of Mottin’s successful techniques spread to other established hypnotists around the country. Hypnotists from every state in this country came to study with Don. His teachings were not just limited to the hypnotists in the United States. Hypnotherapists from over 25 countries have advanced their careers by studying Don’s techniques.

THREE EXCITING CLASSES!

Presented by Don Mottin, NGH VP, DNGH, CMI, OB

CONDUCTING AND MARKETING SHOWS, SEMINARS, AND CLASSES & WORKING WITH SUGARHOLICS

SUNDAY, NOVEMBER 9, 2025

Conducting Shows, Seminars, And Classes 9AM to NOON

Don Mottin has been conducting shows, seminars, and classes for over four decades. This is the first time he has shared his knowledge with others. Don says there are three requirements to be a success with groups of any type. First, you must feel confident with your ability to conduct these. Second, you are aware of the six elements of teaching groups. Third, you must know how to fill up the room. It does not matter if you are the best presenter in the world. If you cannot fill up a room, you could still fail.

Don has proven that he can make more money in a single class than he does conducting 30 private sessions. As a hypnotist, you have only one thing that is valuable to the public. That one thing is your time. Don still teaches classes, even now in 2025. Don says he continues teaching, not so much for the money, but he enjoys teaching. That is sure what success is – enjoying what you do so much that you never have thoughts of quitting. If you are ready to enjoy teaching, this class is for you. In this class you will also receive Don's full self-hypnosis training program, which has been rated as one of the best self-hypnosis classes of all times. This is an \$80.00 value. Just as there are things that you will learn to do, you will also learn the things that you should avoid. Being able to learn from a teacher with over 40 years of experience teaching hypnosis classes and shows could prove to be one of the best investments of your life.

Working With Sugarholics 1:00 pm to 4:00 pm

A habit is a behavior that you repeat regularly, often without thinking about it. An addiction, on the other hand, is a compulsive behavior that you feel you have little control over.

It is common to think that an addiction is always a type of drug or alcohol. Imagine telling an alcoholic to just have three or four drinks a day. Why would this not work? The answer is easy. They no longer have a habit – they now have an addiction. One of the most common addictions is that of sugars. Too often, the hypnotist working with weight loss fails to realize that their client has an addiction and not just a habit. Don has hypnotized over 50,000 people. His success with weight loss skyrocketed once he discovered clients that were sugarholics.

In this class, Don will also provide his customized tests that will indicate if your clients have a habit of sugars or they have become addicted to them. Without knowing if you are working with a habit or an addiction, your success will be short-lived. Imagine that just one class that would enable you to instantly see your success with weight loss clients increase dramatically. You will never again conduct weight loss sessions the way you have in the past.

Don and Dr. Damon make you feel special and important and by the end of the course you feel and believe you are too. The pace, energy and consistency are as valuable a lesson as the theory and experience. Not only do you feel like you have learned something special as importantly you feel part of something special too. Thank you for the lesson and the opportunity.

Train The Trainers program with Don Mottin is unlike any training I have ever received. The five days of training with Don were the most intensive, positive and fulfilling training in my 17 years as a mental health counselor and 10 years as a Consulting Hypnotist. The program was well planned and organized. The tuition was reasonable and the venue for conducting the training was first class. The fast pace and exciting training was interesting due to the high energy of the instructor and fascinating learning material. There is no vestige of a doubt, that with this training I am better able to make a profound difference in the lives of my clients and better to teach others aspiring to become hypnotists. **Dr. Harold L. Crestview, FL.**

This was a very professional training class. I have over 30 years with Bellsouth and taken many classes, and have even trained and this class flowed very well. Don Mottin is extremely knowledgeable and I have been to other hypnosis conventions but this surpasses and exceeds my expectations. The information provided is priceless and Don as a presenter is just wonderful. It flowed very well and kept my attention. Each moment was filled with more and more useful information. I am leaving confident and proud to be a member and affiliated with the Guild. More important I am ready and motivated to promote the profession! Thankyou.

Karen S. Miami, FL.

I heard of Don Mottin, but had never taken any of his classes in the past. I went into this training being very skeptical. I was about to invest a great deal of both time and money with a person who I had never met. Within the first hour of the Train The Trainer class I knew that I made the right decision. If you have the opportunity to that this class from Don, you will not be disappointed. **Sharon L. Boston, MA**

Great course. Lots of practical advice not covered in the manual. Don knows his stuff. Good stories that you could use with your students. Loves to share his experiences.

Roy T. Vancouver, Canada

Don: I really enjoyed the training. If there is anyone around to model as a speaker or instructor it is you. You have high energy and you make the training experience fun. If I can capture some of that energy, enthusiasm and fun in my own training sessions they will be successful events. I especially liked being asked "wouldn't it be nice to have a copy of that to use?

Well, you will because we're bringing it for you tomorrow!" That builds excitement followed by "wow"! It was great to see you raise the level of excitement and enthusiasm in the group during the training. I would recommend your training session to anyone without reservations or hesitations. I thoroughly myself, made new friends, and feel prepared to go out and advertise training sessions both for certification as well as self-hypnosis. I still feel energized from your Train The Trainers workshop! Thanks so much for providing the training. I feel honored and luck to have been able to attend. **David H. Tucson, AZ.**

I have thoroughly enjoyed this class. I adore Don and his classes. I have appreciated everything about this class – the way it was set up and implemented. Thank you.

My first training with Don was learning to teach his self hypnosis program. I was blown away at both his knowledge, and high energy. I wanted more so I enrolled in his five day class. I thought that there was no way for him to keep that excitement level for a full five days. He did not disappoint. I've also really appreciated that Don makes learning fun and exciting at the same time. I can recommend Don's Train The Trainer class to anyone who wants to take their career to the next level. **Paul W. Springfield, IL.**
