Class #2 November 15, 2026 Helping clients to overcome addictions \$195.00 9:00 am to 4:00 pm

Attend one or both classes. A huge discount for attending both days. See below.

Why Computerized?

When you realize that there are over thirty million possible variations. In fact, the exact number is **32,768,000**. This program is a must. In this workshop Don will share with you exactly what he has mastered over 46 years working with weight loss. Participants will leave feeling both confident and competent in their ability to conduct both private and group weight loss sessions.

This a live training and is only taught on November 14, 2026 in Orlando.

Weight loss can be one of the most challenging types of session.

Approximately 73.6% of U.S. adults aged 20 and older are considered overweight. Compare that with worldwide, about 43% of adults are overweight.

The idea of simply reading a script to a client, and hoping to have success is not realistic. You will have an intake form that will have a full personality test, followed with 30 specific techniques that will go way beyond a simple script. Some hypnotists like direct suggestions. Others like indirect suggestions. Then there are those who love metaphors. Which one is best? That is easy. You need to utilize each one of these for every session.

What you will learn

How to implement the material that is on your free USB drive

- * Eliminating emotional eating
- * Speeding up the metabolism
- * Having a spouse help, rather than interfering
